

ASSOCIATE OF ARTS IN GENERAL LIBERAL ARTS

Math & Science

About the Program

The Associate of Arts Degree program in General Liberal Arts is a college program that allows students to acquire the necessary skills, concepts, and experience to continue their academic careers in other disciplines or be employed in countless positions.

The General Liberal Arts program at USM offers a blend of courses in humanities, mathematics, natural science, social science, and linguistics that are needed to sharpen the communication and critical thinking skills lauded by employers and are also necessary for students to continue on to bachelor programs.

The General Liberal Arts Associate's Degree in Math & Science gives the students the opportunity to explore their goals by electing the courses according to their choice of study or career. The concentration in Math and Science provides a solid foundation in the basics of natural and physical sciences/mathematics for persons wanting to specialize in the area/field.

For More Information

Persons interested in applying to the program should consult with the Student Service Center at the University of St. Martin. Depending on the information being sought, an appointment with the General Liberal Arts Division Head or the Dean of Academics may be scheduled.
